

Diagram showing how data moves between 3rd party systems and BassetPro/WHiPPET

Existing Asset Data

- * Spreadsheet
- * Wordprocessor
- * Database

New System:

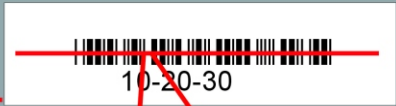

- * SAP
- * Oracle
- * FreeBalance
- * Access
- * Spreadsheet

Interface between systems.
Uses intermediate file. ("Coke can" approach)
Provides isolation.

BassetPro Desktop:
 * Data transfer
 * Import/Export
 * Query and Reporting

New Assets/Inventory

New Assets/Inventory

Verification

Receipts/Putaway Picks
